

GPA Calculation Sheet

Our parent organization, Eta Sigma Alpha, requires a qualifying standardized test score to gain initial entry into the National Home School Honor Society. We stand by, and abide by this rule, as it is a requirement of our charter. ***Therefore please note that this GPA calculation sheet is NOT valid for students in rising 7th grade or rising 9th grade, or for a student in any grade who is applying for NEW membership. These students must submit a qualifying standardized test score.***

The Psi Omicron chapter requires continued evidence of scholarship to maintain membership. We recognize that standardized test scores are important, but we also recognize that they are not necessarily a true measure of one's abilities. Standardized tests measure a student based on one particular date and time, and the score achieved might or might not be a true representation of what a student is capable of. A grade-point-average (GPA), on the other hand, is a way to measure achievement across the period of a year.

Students who wish to continue membership in Psi Omicron, but who do not have a qualifying standardized test score, may have their school administrator (parent) fill out the following form to demonstrate sufficient academic achievement in their home school. **A minimum GPA of 3.5 is required based on a 4.0 scale.**

SAMPLE GPA CALCULATION

Class	Credits	Grade	Calculation	Quality Points
Algebra I	1	A	1.0 x 4	4.0
Biology	1	B	1.0 x 3	3.0
Government	.5	A	0.5 x 4	2.0
Economics	.5	A	0.5 x 4	2.0
Spanish I	1	B	1.0 x 3	3.0
English Lit/Comp	1	A	1.0 x 4	4.0
TOTALS	5			18.0
			18/5 credits =	3.6 GPA
